

PATC

Professional Accountants
and Tax Consultants

COMPANY PROFILE

OUTSOURCED ACCOUNTING MAKES SENSE...

Not sure where to start when it comes to your accounting or tax needs? Bored by the idea of maintaining the books for your business? No time to worry about paperwork and tax deadlines? Outsource your accounting needs and free yourself to focus on building your business. Work with professionals and you can rest assured that your books are in order and your business benefits from expert accounting and tax advice.

LOOKING FOR PROFESSIONAL HELP?

Established in 1992, PATC provides **professional accounting and tax services** for individuals and businesses. Our business is rooted in integrity and we pride ourselves on working closely with our clients to ensure they receive quality service and tailored advice at all times.

PATC
Professional Accountants & Tax Consultants

PATC COMPANY PROFILE

OUR SERVICES

We cover all financial services under three broad categories:

ACCOUNTING

Our professional accountants will manage all your accounting needs, for you and your business.

From strategy to implementation (including financial statements, business plans, valuations, and reports), we will strive to ensure your business remains compliant while benefitting from tax saving tips and sound business advice.

Need business or investment help? We can put you in contact with experts who will help you manage your business and your wealth.

TAX SERVICES

VAT, PAYE, SDL, EMP501, tax returns... Trying to keep the required documents up to date and meet numerous tax deadlines can be very stressful.

As tax experts, we have over 20 years' experience dealing with a wide range of tax concerns. Fully versed on tax law and the latest SARS updates, we can ensure that all your tax needs, from payroll to SARS payments, are efficiently and promptly met.

With our outsourced service, your business will stay compliant and avoid penalties, saving you time and money in the long run.

BOOKKEEPING

Bookkeeping involves keeping up-to-date records of daily transactions, invoices, outstanding payments, tax requirements, and the business' current financial state.

Most business owners find bookkeeping to be an onerous task but accurate bookkeeping is essential to business success.

An experienced bookkeeper can take over your daily financial affairs, ensuring that your books are accurate, you are able to easily fill SARS requirements, and you know the state of your business at any given time.

ALWAYS FORGET YOUR TAX DEADLINES?

We have an app for that!

You can personalise it for your business and it's free! Combine this technology with our consultants and your tax will be trouble-free.

See our website for more details.

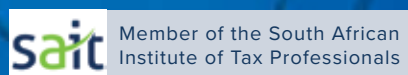

HOW WE WORK

At PATC, we value our clients' time and business.
That's why your first consultation with the PATC team is free.

Once a client, our monthly fee structure means you won't have to worry about surprise fees. Instead you can factor this cost into your monthly budget while enjoying our 24 – 48 hour turn-around time on any given project. Contact us for a breakdown of our monthly fees or we can tailor make an accounting solution to fit your needs.
